

QUINN & CO.

The whole company. One system. One price.

01 — WHAT IT REPLACES

The output of an entire support staff. **One system.**

Hire these roles on the open market and this is the bill — before benefits, sick days, turnover, and management overhead.

Executive Assistant	Email triage, scheduling, follow-ups, reminders	\$1,500 – \$3,000/mo
Receptionist	Client intake, lead qualification, call screening	\$2,000 – \$4,000/mo
Marketing Coordinator	Social media, email campaigns, content creation	\$3,000 – \$5,000/mo
Bookkeeper	Invoice processing, expense tracking, reporting	\$1,500 – \$3,000/mo
HR Coordinator	Job postings, resume screening, onboarding	\$2,500 – \$4,000/mo
Operations Manager	Document processing, scheduling, KPI tracking	\$3,000 – \$5,000/mo

\$13,500–24,000

COMBINED MARKET COST OF THESE ROLES, PER MONTH

Quinn & Co. delivers all of it for **\$1,297 a month** — under a tenth of the human payroll. AI agents don't take sick days, don't need benefits, don't quit after six months, and work around the clock.

02 — THE SYSTEM

Quinn runs it. **You approve it.**

One point of contact — chat, email, or voice. **Quinn** dispatches every task to a department of specialists and brings back the finished result. Nothing external ships without your sign-off.

LED BY REESE

- **Email, drafted & sent** — the moment you approve
- **Dictation built in** — Forge ships inside; talk, don't type
- **Client files** — built from a paste, deadlines extracted
- **Meetings & boards** — summarized, filed, followed up
- **Sales data diagnosed** — answers, not charts
- **Voice briefings** — your morning, already read
- **Books & invoices** — processed, categorized, reported
- **200+ integrations** — inside the tools you already use

03 — THE PRICE

Everything. No tiers, no menus, no à la carte.

\$1,297/mo

QUINN & CO. — THE WHOLE COMPANY

- All 8 departments — 50 agents
- 260+ trained skills
- **Your AI subscription — included**
- 40M tokens per month
- 6-layer security, day one
- Monthly strategy call
- Ongoing updates & new skills
- Month-to-month — cancel anytime

THE CAP — AND NO SURPRISE BILLS, EVER

40M tokens covers roughly **1,500–2,000 AI interactions a month** — more than most businesses use. At your cap, **Quinn pauses non-urgent work and asks you first** — you are never surprise-billed. Need more? A second dedicated subscription adds \$100/mo.

04 — SETUP • ONE-TIME, CHOOSE YOUR DEPLOYMENT

PREMIUM — THE SHOWPIECE

\$4,500

HARDWARE INSTALL

- **Apple Mac mini (M4, 32GB)** — dedicated AI workstation
- **27" display** — always-on Mission Control dashboard
- Premium keyboard & mouse, battery backup
- **Pre-configured** — Quinn arrives ready to work
- On-site delivery & setup by our team
- Your AI department on your desk, day one

SOFTWARE

\$1,500

INSTALLED ON YOUR COMPUTER

- **Runs on your machine** — no new hardware
- Web dashboard — manage from any device
- Full system configuration by our team
- Integrations configured — calendar, email, CRM
- Onboarding session — walkthrough + training
- **Same AI power** — identical capabilities

• BOTH INCLUDE: CUSTOM WORKFLOW SETUP • INTEGRATION CONFIG • ONBOARDING & TRAINING • 30-DAY PRIORITY SUPPORT

05 - SECURITY

Six layers. Every request. **No exceptions.**

Every request — inbound and outbound — passes through all six layers before anything happens. Any layer errors, the request is blocked. The system fails closed, never open.

01 • SANITIZER

Input validation, injection detection, 32-pass URL decode.

03 • OUTBOUND GATE

External actions require owner approval. Default-deny on unknowns.

05 • CALL GOVERNOR

Rate limits, token caps, budget enforcement, cost alerts.

02 • FRONTIER SCANNER

AI prompt-injection detection, threat scoring, jailbreak prevention.

04 • REDACTION ENGINE

Automatic PII & credential stripping — 16 data types.

06 • ACCESS CONTROL

Role-based access, tenant isolation, department-scoped agents.

SHA-256

BITCOIN-GRADE HASHING

The same cryptographic standard that secures Bitcoin — guarding config integrity and API keys.

AES-256-GCM

ENCRYPTED AT REST

Military-grade encryption on all stored data — confidentiality and tamper-evidence in one.

Docker

SANDBOXED AGENTS

Every agent runs isolated in a container — non-root, read-only filesystem, capabilities dropped.

0

ACTIONS SHIPPED WITHOUT YOUR APPROVAL

Every outbound draft holds in an approvals queue until you sign off. Every action lands in an append-only audit trail. **Your data. Your control. Always.**

06 — EVERYTHING AT A GLANCE

The bottom line.

Quinn & Co. — monthly All 8 departments · 50 agents · 260+ skills · AI subscription & 40M tokens included	\$1,297 / mo
Hardware install — one-time Mac mini workstation + 27" dashboard + peripherals + on-site setup	\$4,500
Software install — one-time Your computer + full configuration + onboarding	\$1,500
Extra capacity — optional Second dedicated AI subscription, added anytime	+\$100 / mo

A part-time employee costs **\$2,000–\$4,000 a month** — limited hours, limited skills, one pair of hands. Quinn & Co. is **50 specialists working around the clock** for less than that. No sick days. No turnover. No benefits overhead. Just results.

STEP 1

A free 30-minute demo. See Quinn working on your business, not a slideshow.

STEP 2

White-glove setup — software or hardware. Quinn arrives configured, not boxed.

STEP 3

Live in days. You approve the output; the system does the rest.
